The Original Muck Boot Company story began in 1999 with the sole purpose of building the most comfortable, high-performance footwear on the market. Every boot in the line is expected to deliver the same waterproof quality and comfort that inspired the original footwear. The line now features fashionable styles beyond the classic down-and-dirty boots the company is so famous for without losing important features such as breathable Airmesh lining, a CR flex-form bootie and four-way stretch nylon lining. Visit us at OR (31184W) and WSA.
